

# Moorish invasions

*(August 2026)*

1. In 711, a well-armed and well organized brigade of 7,000 Moors sailed from Ceuta in North Africa and invaded Gibraltar. They soon conquered over the Visigoths nearly all of Spain and Portugal, and large tracts of France. They and their heirs stayed 781 years, until 1492, when Spain invaded America.
2. In 2026, an unarmed ragtag army of 60,000 Moors invaded the small town of Ceuta. They retreated the next day, leaving behind 88 drowned or trampled over.
